

THIRUMALAI SIDDHAN R

rthirumalaisiddhan@gmail.com — +91 9585495544 — LinkedIn — GitHub

Objective

Aspiring Java Full Stack Developer with hands-on experience in Java, MySQL, React, and object-oriented programming, building secure and database-driven applications. Passionate about solving real-world problems, learning modern technologies like Spring Boot, and developing scalable software solutions as part of a growth-focused engineering team.

Education

Bachelor of Engineering in Computer Science and Engineering **2023 – Present**

K.S.R. Institution for Engineering and Technology, Namakkal

CGPA: **7.88** (Up to 6th Semester)

Higher Secondary (12th) **2020 – 2021**

Acharya Higher Secondary School, Edappadi

Percentage: **70%**

Technical Skills

Programming Languages: Java, Python

Frontend: HTML, CSS, JavaScript, React

Database: MySQL

Tools: Git, GitHub, Power BI, VS Code

Internships

Power BI Intern — Stack Queue Education, Salem **June 2025**

- Built an interactive **Sales and Revenue Tracking Dashboard** in Power BI by performing end-to-end data cleaning, transformation, and Power Query modeling to convert raw sales data into actionable business insights.
- Developed KPI-driven dashboards and reports to visualize sales trends and revenue analytics, enabling data-driven business decision-making through interactive visualizations.

Java Full Stack Developer Virtual Internship **Jan 2026 – Mar 2026**

- Developed full stack web application components using Core Java, JDBC, and SQL for backend logic and database integration, alongside HTML, CSS, and JavaScript for responsive frontend development.
- Implemented CRUD operations and applied Object-Oriented Programming (OOP) principles to build maintainable, responsive application modules while strengthening full stack development skills.

Projects

ATM Simulation System *Java — Java Swing — JDBC — MySQL*

- Developed a desktop ATM banking application using Java Swing for the GUI and JDBC for MySQL connectivity, implementing PIN-based authentication and CRUD operations across relational database tables.
- Built core banking features including deposit, withdrawal, fast cash, mini statement, PIN change, and real-time balance calculation, along with a multi-step signup workflow that auto-generates card numbers and PINs.

E-Commerce Website *HTML — CSS — JavaScript*

- Built a responsive Flipkart-style e-commerce website with category browsing, live product search, and price filtering using HTML, CSS, JavaScript, and DOM manipulation.
- Implemented an interactive shopping cart with add/remove items, quantity controls, wishlist functionality, and dynamic order summary calculations.

Certifications

- Java Programming Certification – GUVI
- Microsoft Power BI Data Analyst – Coursera
- Introduction to Cloud Computing – NPTEL (IIT Kharagpur)
